

Nydek(Czech Republic)

Our way to Nydek, which is a small but nice little town in the Czech Republic, was 6 hour long trip, but it was absolutely worth it. Three very nice people was waiting for us at the station and took us to the school. Here we met the families, in my case Dominica. My family was very friendly. The first day was about getting to know each other. During the

time we spent there, we went for a lot of excursions. This trip is about books and reading so we went to a library. The library was my favorite, because I like to read and it was very beautiful, modern and there were a lot of books. In the evening we went to eat pizza with

others. Nydek is a very nice place, we climbed up on the hill Chantori. The view from the mountain was very nice. We ended the day with a disco. On Thursday we played Olympic games and the afternoon we spent time with the families. I went shopping with my family and two friends and their hosts. We had fun together, and afterwods we went to eat. We went home on Friday. Everyone was sad and there was someone who was crying. After we sad goodbye to our new czech friends we went to the railway station. I had a very good time in Czech Republic, I hope I can go back some time again.
